SEVERE BLOW-THE RINK MURDER-THE HEMP-

From Philadelphia.

Severe Blow—The Rink Murder—The HempFIELD RAILROAD.

Philadelphia, April 14, 1853.

A severe blow took place this afternoon, with thunder and lightning. A tin roof was torn from Elwards' new hotel on Bread street, below Chemut, and portions were thrown nearly a square disant. The roofs and upper part of four stores on Pelwarce avenue, near Vine street, were blown down—Washington Russell, who was passing at the time, was seriously injured.

Early this morning, the various persons who saw the man leave Rink's store on the afternoon of the murder, were taken into Spring's cell for the purpose of identification. They all, with but one exception, agree that the prisoner's general appearance resembled that of the person they saw. One wi'ness was positive in his identification. Subsequently, Spring sent for the Grand Jury, and volunteered the following statement of his connection with the Rink murder:—"As he was passing the store during the afternoon, he heard a cry of murder, went in, and as he did so, a man with bushy whiskers rushed out; saw Rink lying on the floor, who exclaimed he was killed; assisted him up, and then ran in pursuit of the murderer; followed him down the saut street and lost sight of him in Eighth street. He acknowledges having left Regan's umbrella in Rink's store.

The Fire Wardens.

ANNUAL REPORT TO THE COMMON COUNCIL—BLECTION OF WARDENS FOR THE ENSUING TARK.

The annual report of the Fire Wardens, for the -year ending April 1, was received in the Board of Aldermen on Wednesday evening, from which it appears that the whole number of violations of the fire laws, for the past year, has been 1,658. The number of violations removed from buildings, by the owners or builders thereof, upon being actified by wardens, was 476; ditto not removed, and copies of the notices relative thereto transferred to the trustees of the Fire Department, 79; ditto of violations of ordinances complied with, 1,063; ordinances not complied with, and cases transferred to Corporation Attoriey, 40—total, 1,658.

The number of buildings reported to the Chief Engineer as being dangerous particularly in case of fire, was 44. Quantity of gunpowder seized, 2,300 lbs.

The Board call the stiention of the Fire Department to the following dangerous buildings, viz.:—Now. 181, 183, 185, 187, 186 Seventh street, zear avenue B, comprising a row of four story brick buildings that seem to stand in defiance of the laws of gravitation.

These buildings (the Board added) are in an overhanging position, and it is the opinion of practical mechalics that the mere anchors of the beams prevent the walls from falling out: and as they are occupied by a number of families, such an event would cause a deplorable loss of life; yet there is no law existing that can compel the owners of such houses to tear them down, or make them secure.

The Board also complain of the following buildings being in danger of falling:—Building corner of Pearl and Dover streets, (reported last year.) occupied as a billiari saloon and a portion recently by Hose Company No. 10; the two story brick building for the following buildings on the north corner of Broadway and Canal street, accupied by the Broadway Insurance Company; the building in the rear of Nos. 87 and 89 Elizabeth street, a manufactory.
